## SwiMP3

Swim laps to keep in shape? Training for a triathlon? Wish you could listen to music or other recordings as you would in your land training?

The new SwiMP3 underwater MP3 player is specifically designed, using bone conduction technology, for underwater use so you can stay wet, workout longer, train with more focus, or simply enjoy exercising a little more.

**Paradise**—perfect for casual lifestyles, designed to move with your foot as you walk. Made with a microfiber suede upper, the Paradise has a lycra tape at the throat for a closer fit that also stretches for comfortable wear and easy slipping on/off. These shoes are good for indoor or outdoor use—relaxing around the campsite, firing up the bbq after a long winter run, or putting about the garage getting your ski gear together.

## Field Repair Kit

The Field Repair Kit is a low-cost, 1/2 oz 'fix everything' kit for field repairs to your Therm-A-Rest, tent, rain jacket, pack, boots, etc. ...

**McNETT**  
Essentials for Adventure™

## Ergo Jacket

As a cool wind whips around the ridge, you're glad you have your ever-so-light (less than 13 oz), but ever-so-warm (650+ down insulation) Ergo Down Jacket conveniently stuffed in its sack in your pack. Unstuff and keep the heat in for the chilly downhill trek.
